PIGEON SLUGGERS
BEATEN BY O. R. E. JR.'S.

In a thrilling and closely contested game of baseball this morning the Pigeon Sluggers, an aggregation of strictly home talent, were defeated by the O. R. E. Jr.'s to the tune of 23 to 13. The conjunction of the two unlikely number sets suggests that the Pigeon Sluggers must have been reading Emperor William's horoscope.

BUSINESS COLLEGE
ISSUES BIG
QUARTERLY

Twelve Thousand Copies of "Business Efficiency" will be Distributed Throughout the Southwest.

President J. E. Goodell is looking after the distribution of 12,000 copies of "Business Efficiency," the quarterly which is issued by the Albuquerque Business College. This issue of "Business Efficiency" is one of the most interesting of the quarterlies yet sent out. It is replete with splendid articles spurring on the ambition of live young men, young men to whom the country will be looking to carry on the industries of the next decade. The quarterly is profusely illustrated and describes the various courses of study offered by the Albuquerque Business College.

Mr. Goodell has cause to be proud of the record of his college. He has graduates filling important positions all through New Mexico and Arizona. A portion of the quarterly is given over to the young men and women who have graduated at the college and many interesting stories are told of the success attained by the former pupils of the college and of the help their business training received at the college was to them.

PRESIDENT WILSON
RETURNS TO CAPITAL

Washington, Aug. 12.—President Wilson's special train returned from Hot Springs, Ga., reached Washington at 5 o'clock this afternoon. The president drove at once to the White House.

EASTERN BUSINESS
IS BOYANT AS
RESULT OF WAR

Pessimism Dispersed by Feeling that the Bumper Crops will Bring Bumper Prices, Says P. F. McCanna.

There is a buoyant feeling in the eastern business world as a result of the war in Europe, according to P. F. McCanna, who returned yesterday from a business trip of several weeks' duration to New York and Chicago.

It is figured that there will be a big demand for American foodstuffs and other supplies. Before war was declared the state of the business mind was not cheerful. It was known that there would be bumper crops, but the business men and financiers were afraid the prices would be poor. With the outbreak of the war war has come a feeling that, as it has been said, there will be "bumper crops for a bumper crop."

Oddly enough, the big business and financial leaders are reluctant to admit that there is a decidedly hopeful change in the feeling. Mr. McCanna said that none of the leaders would probably admit any such change, but the shift in the feeling was so swift and so great that it struck the Albuquerque observer everywhere. And he was in a position to feel the pulse of trade and finance. His business connections brought him in contact with big Wall street men and leading merchants and bankers. Before the war broke there was a feeling of pessimism so plain that it could not be blinked. With the crash of arms came a change in spite of the temporary tightness of money. It could be seen everywhere. The tone of business conversation brightened, and business men and bankers went about with the expression of men looking for and hopeful of good things.

For a few days after the war situation arose checks were worthless in New York. Specie was not to be had from banks. Before Mr. McCanna left—he was in New York a week after war broke out—that condition passed. As late as last Friday when he was in Chicago, however, the banks there were still demanding 60 days' notice on checks.

News of the war threw New York into a state of intense excitement. Crowds gathered wherever bulletins were displayed. There was a jam so great at Madison Square, Mr. McCanna said, that it was almost impossible to get through it. Newsboys shouted their extras everywhere, and the papers, appearing in a swift succession of issues, were snatched up eagerly by the people on the streets. The news, papers were in their element, and huge black headlines of the scariest type added fuel to the excitement.

How Bad Backs Have Been Made Strong—Kidney Pills Corrected.

All over Albuquerque you hear it. Doan's Kidney Pills are keeping up the telling about it. It is telling of bad backs made sound again. You can believe the testimony of your own townpeople. They tell it for the benefit of those who are suffering. If your back aches, if you feel lame, sore and miserable, if the kidneys act too frequently, or passages are painful, scanty and off color, use Doan's Kidney Pills, the remedy that has helped so many of your friends and neighbors. Follow this Albuquerque citizen's advice and give Doan's a chance to do the same for you.

Mrs. Thomas Blakemore, 216 S. Arno St., Albuquerque, says: "I knew I needed a kidney medicine as my back ached and I had other kidney ailments. I used one box of Doan's Kidney Pills and have never needed any kidney medicine since. My relatives have also used Doan's Kidney Pills with the most satisfactory results."

Mrs. Blakemore is only one of many Albuquerque people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mrs. Blakemore had—the remedy backed by home testimony. 50¢ at all stores. mains as before, excellent."

London, Aug. 12, 7 p. m.—The struggle between the Belgians and the Germans for the Liege forts recommenced today. The forts are being fired on and are returning the fire of the Germans with vigor.

The German troops are in movement with the evidence in intention of crossing the river Meuse. Convoys have been sighted proceeding toward Enghien, a town to the southwest of Liege.

TWO GERMAN REGIMENTS
WIPED OUT BY FRENCH

London, Aug. 12, 5:45 p. m.—A Rome dispatch to the Central News says that the Messaggero publishes a message from Basel, Switzerland, stating that two German infantry regiments were annihilated during the battle with the French troops at Muelhausen.

The German regiments mentioned are the Eighth Baden infantry regiment, No. 143 which was stationed at Lahr in Baden, and the Fourth Prince William's Baden infantry regiment No. 112 stationed at Muelhausen.

The commander of the 28th division attached to the Fourteenth army corps whose headquarters were at Freiburg is said to have been killed. Another dispatch from Rome, to the Central News says the Corriere d'Italia publishes a telegram from the frontier stating that an Austrian cavalry brigade has been exterminated on the Austro-Russian frontier.

The Austrian cavalrymen are said to have attacked the Cossacks who were accompanied by artillery. They were unable to hold their own and tried to get back across the frontier, but rain had fallen and men and horses were caught in the marshy ground and shot down until not a man remained alive.

GERMAN GENERAL STAFF
INSTALLED IN CONVENT

Brussels, via London, Aug. 12, 4:20 p. m.—A letter received here from Liege says the German general staff is installed there in the convent of the Sacred Heart, which is strongly fortified. The Germans, it adds, are accumulating quantities of flour in case they should find themselves invested instead of being the besiegers.

MONTENEGRO TROOPS
CAPTURE SCUTARI

Rome, via London, Aug. 12, 4:25 p. m.—The newspaper Corriere della Sera states that the Montenegrin troops have captured Scutari.

OFFICIAL GERMAN STATEMENT
ON SIEGE OF LIEGE

London, Aug. 12, 9:10 a. m.—The correspondent of the Exchange Telegraph company at Rome says that a dispatch from Berlin gives an official statement by General von Stein regarding the siege of Liege. The German commander denies the loss of 20,000 men, but does not give his losses. He says that only a small number of German troops were engaged in order to mask the movements of the bulk of the army. The enemy's advance attacking force, he says, was completely annihilated and while admitting that the forts remain intact, explaining this by saying: "The emperor did not wish to sacrifice life unnecessarily, but so soon as the heavy artillery arrives the forts will be taken without the loss of a man."

General von Stein admits that the capture of the forts is a difficult problem because of the unfavorable ground about them and further because the population of the town, including the women, shot at the German troops from behind, firing indiscriminately, hitting the surgeons and the wounded. The German commander concludes with the remark that "it must not be forgotten that the Belgian force is numerically superior to ours."

FRENCH CLAIM GERMANS
ARE HEAVY LOSERS

Montreal, Aug. 12.—A cablegram from Paris to the Montreal Star gives the following account of an engagement between the French and Germans.

"The French war office issued an official announcement today stating that the troops of the republic have been victorious in engagements with the Germans."

"It was further officially stated that all the German soldiers who penetrated France in the departments of the Meuse and Meurthe-et-Moselle have been driven back across the border."

"At Marienbourg, northeast of Verdun, a sharp engagement took place in which the French claim to have repulsed the Germans with heavy loss, six guns, three heavy pieces of artillery and three rapid-fire guns also fell into the hands of the soldiers of the republic. A battery of German artillery was disabled."

"During the early stages of the battle the Germans fought with such recklessness and audaciousness that the French lines were on the point of wavering; then reserves were thrown forward to support the French front. This turned the tide, according to the French war office dispatches, and the French troops then began a counter attack."

NO MORE
GOLD TO
EUROPE

New York Bankers Determine to Shut Off Draining of Precious Metal. Shipments to Canada Small.

New York, Aug. 12.—It is denied in financial circles here that the entire amount of the \$19,000,000 and more gold taken from the Kronprinzessin Cecilie is to be sent to Ottawa. J. P. Morgan and Company, it is understood, have recently consigned \$1,000,000 gold to the Canadian capital, but other bankers interested in the Kronprinzessin Cecilie shipment, recently returned here, expressed the opinion that only a small part of that sum will be shipped across the border.

There were further indications in New York today that any movement looking to large shipments of gold to Canada, whether for the Bank of England or for any other purpose, will be unpopular in banking circles. New York bankers deem it of the highest importance that gold be held here regardless of foreign obligations. There are other ways, it was pointed out, of meeting our debts in London, and these it was argued, should be resorted to.

Money rates and foreign exchange were quibblingly easier today, but actually without material change. All time rates continued on a 6 to 8 per cent basis, with some offerings at the lower figure. Exchange brokers were doing a little more business with London, but nothing like a general movement in that direction is probable for some time.

In confirming the report of the shipment of \$1,000,000 gold to Ottawa, J. P. Morgan and Company said the sum had been intended for shipment to the bank of England at London before the beginning of war. It was diverted to Ottawa, the firm said, because it was deemed expedient to risk such a sum on the sea at this time.

J. P. Morgan and Company announced today that \$6,000,000 additional French gold had been deposited with the firm's Paris house. This materially increases the French government's deposits with J. P. Morgan and Company and the firm announces that it is prepared to sell checks and cable transfers on Paris in liberal amounts.

are entirely false. Only small groups of German soldiers entered the town itself under cover of the darkness. All the encircling forts, twelve in number, are intact."

SECOND GERMAN ATTEMPT TO
BRIDGE HERSTAL SUCCEEDS

Amsterdam, Aug. 12, via London, 2:25 a. m.—The second attempt of the German army to build a pontoon bridge at Herstal over the Meuse was successful, according to a dispatch from Maastricht to the Telegraph today. The bridge is intended for the passage of siege artillery, several pieces of which are being sent to Liege and others to Namur.

BLOCKADE OF MONTENEGRO
ON EAST BY AUSTRIA

Vienna, Aug. 12, via London, 2:25 p. m.—An effective blockade of the Montenegrin coast has been established since yesterday by the Austro-Hungarian fleet, according to an official announcement here today.

AMERICAN HELD AS
A SPY IS RELEASED

Halifax, N. S., Aug. 12.—John L. Ferguson of Spokane, Wash., an American citizen arrested at Mahone Bay, N. S., yesterday, suspected of being a spy, has been released. It was shown that Ferguson was employed in making maps of Nova Scotia for the government.

PROMINENT RUSSIANS IN
SOUTH GERMANY SEIZED

St. Petersburg, Aug. 12, via London, 6:50 a. m.—It is announced from government sources that 36 prominent Russians who spent the summer at health resorts in the south of Germany, including the Countess Vorontzow-Dachow, wife of the viceroy of the Caucasus; her two daughters; M. Schebeko, a member of the council of the empire, and other titled personages suffered great hardships at the hands of German officials.

According to this report some of them were temporarily imprisoned during their journey to the frontier, which, owing to the frequent hindrances, occupied several days. It is asserted that the aristocratic ladies were roughly handled by police and members of the military.

SERBIAN AND MONTENEGRO
ARMIES WORK TOGETHER

Nish, Serbia, Aug. 12.—The Serbian and Montenegrin armies, which had effected a junction on the border of Herzegovina now are operating together.

Serbian artillery is engaged in the bombardment of Gorashka, on the river Drina, 25 miles southeast of Sarajevo, the Bosnian capital. Serbian troops already had captured the Bosnian town of Vardishta at the junction of the rivers Drina and Lim. Some unimportant outpost encounters are reported on the Serbian frontier at different points on the rivers Sava and Danube.

The bombardment of Belgrade, the Serbian capital, by the Austrian artillery, continued today and heavy material damage was inflicted on the city.

Reports reaching here from Sofia state that the Bulgarian government is preparing for eventualities, but it is not known what it has in view.
